

SPROCKETS FOR TABLE-TOP CHAINS

Available in steel, case hardened steel and in stainless steel AISI 430.

- Our sprockets are always solid.
- All teeth are carved (carving made for the chain to mesh every other teeth, what doubles the sprocket's lifetime)
- Pilot bore 19H10

On request :

- Machining of :
 - Bores
 - Bearing seats
 - Keyways
 - Grub screws ...
- Manufacturing of special sprockets as per drawing or with any number of teeth.
- Mounting of bearing shields
