

CUSTOMER INFORMATION

Date: _____ Deadline for answer: _____

Company: _____ Address: _____

Contact name: _____

Phone: _____

Email: _____

OPERATING CONDITIONS DATA

1.	Function of operating chain*	
2.	Linear speed (m/min)*	
	Acceleration / Deceleration	
	Input power (KW)	
	Starting torque (Nm)	
3.	Conveyor length (m)*	
	Working time / Frequency	
	Number of starts	
	Kinematics / Circuit of chain	
4.	Load (N)*	
	Length of pallets (m)*	
	Number of chain strands in parallel*	
	Accumulation*	
	Chain rolling or sliding*	
5.	Working conditions*	
	Lubrication*	
	Temperature of use (°C / °F)*	

* Compulsory data

ADDITIONAL INFORMATION

6.	Repartition of stresses on the chain	
	Which way is the load landing on conveyor ?	
	Conveyor operating in 1 or both ways	
	Payload on chain	
	Load per roller	
	Safety factor	
	Torque limiter	
	Clutch	
7.	Space available	
	Guides dimensions	
	Wheels / Pulleys dimensions	
	Location	
	Alignments	
8.	Matched chains	
	Protection (coating)
